PROHIBITIONISTS LEFT ON

Secretary of State Not Officially
Advised of Withdrawal.

Austin, Oct. 5.—Notwithstanding the fact that the Prohibition party in Texas decided to withdraw its state ticket, the names of its candidates for governor and other state officials will appear on the official ballot, according to an announcement made by Secretary of State Davis. No official advice had been received by the state department of the action of the Prohibition party and now it is too late, as the department began Monday sending out the official ballot.

The Independence party state ticket, as far as its candidate for governor is concerned, goes on the official ballot without any name for governor. E. W. McPherson, who had been named as the candidate, having filed an affidavit in due form of law declining to run.

Independence party voters will have to write the name on the ballot of whoever they intend to vote for.

The supreme court and court of civil appeals convened Monday for the fall term. A number of submissions were made in the court of appeals and three cases submitted in the supreme court.

Alams Antis.

Austin, Oct. 5.—Sterling Strong's defiance as to anti-prohibition supporters and Democratic state executive committee's threat of abandoning the submission proposition in favor of a statutory prohibition enactment by the next legislature is alarming the anti here, who realize the movement a

makes the coming anti-prohibition convention at Houston all the more important.

A Dallas dispatch says Chairman Strong of the Prohibition committee denies any friction between him and the state Democratic committee at San Antonio.

Strong says, the dispatch adds, if the legislature refuses to submit the amendment statutory prohibition will be passed, the pros having a sufficient majority in the next legislature.

SCENES OF DISORDER.

Brought About by the Strike of New York Taxicab Chaffeurs.

New York, Oct. 5.—Scense of disorder occurred in many parts of the city Sunday as a result of the strike of the chaffeurs of the New York Taxicab company. One strike breaker was probably mortally injured, an umber of others were painfully beaten and several of the red taxicabs operated by the company were damaged.

There were only eight cars sent out from the garage during the day, and each was manned by a chaffeur and a special policeman. Many of the machines returned to the garage with broken windows, dented sides and punctured tires, having been bombarded with stones and other missiles.

Alexander Schwenck, the chaffeur who was so dangerously injured, was attacked by a mob of the Knickerbocker club on Fifth avenue. A dozen men pulled Schwenck in the box, compelled the policeman to flee, evicted the passengers and then beat Schwenck until he was senseless.

When the police arrived the men who had attacked Schwenck had vanished. The company claims the strike has been broken, and that many of the oldest men have returned to work, but the strikers deny this.

Not Ordered Off Stump.

Evansville, Ind., Oct. 5.—Before leaving here for his home at Cincinnati Congressman Longworth denied emphatically that he had been ordered to leave the stump. He said: "I arranged to leave the Sherman party Evansville a week ago to go to

Pittsburg, there I had an engagement of long standing to speak at the historical celebration there. There is no truth in this rumor that I am to quit the stump. On the contrary I expect to appear frequently from time to time until the close of the campaign."

Eleven Lives Lost.

New York, Oct. 5.—By the tenement house fire in Mulberry street eleven persons were burned to death.

MOTHER OF MANY.

Herself and Husband Parents of Twenty-Three Children.

New York, Oct. 5.—Mrs. Alice Damp, mother of twenty-three living children, arrived here from the Isle of Wight and passed through the gates at the battery from Ellis Island with eleven of them. She was accompanied by five grand children, her daughter, Mrs. George Warren, and Mr. Warren. At the gate to meet her mother and sisters was Kathleen Warren, who had come from New Haven, Conn., and Mrs. Damp's son, Arthur, twenty-seven years old, who brought the greeting of his father, Alfred Damp, at Pittsburg, Pa.

Another daughter of Mrs. Damp is living at New Haven and three more sons are with their father at Pittsburg, while the remaining children are comfortably married and have been left behind on the British island. Four carriages were hired to take the party to the Pennsylvania railroad ferry and when Mrs. Damp entered the carriage she appeared not a whit disturbed at the entreaties of several of the children to ride "with mother" and beamed on the crowd that quickly gathered to see the big family.

Alfred Damp, who was formerly employed in the stables of the late Queen Victoria on the Isle of Wight, came to America three years ago and found employment with a wealthy man at Pittsburg. Four sons came with him and later he sent for his wife and dependent children. Healthy and rosy cheeked, the party of children disembarked from the New York of the American Line from Southampton and they were soon passed through the inspection lines at Ellis Island.

Mrs. Damp is fifty-six years old. She looks much younger. She carried in her arms her son, Frederick, the youngest child. The oldest in the party of children was Alice, sixteen years old, and the others were Gertrude, Margaret, Sydney, Alfred, John and Arthur.

Mr. and Mrs. Warren had five children, the eldest of whom is fourteen years old. All of the party proved good sailors and the steward in charge of the steerage department of the American liner they came on said they were the least trouble of all the children on the ship.

Step Son Stabbing Charged.

Gainesville, Tex., Oct. 5.—Henry Wagoner, a negro barber, was arrested and charged with stabbing Earnest Townsend, his step son. It is believed the latter will die. They quarreled over family affairs.

Due to Lamp Explosion.

McKinney, Tex., Oct. 5.—The explosion of a lamp Monday set fire to residences of Ira Blackwell and Mrs. M. Spelss. Both were destroyed. Claude and Mabel Spelss were injured.

Vice President Mudge of the Rock Island railway says his line will in a few days begin work on the cutoff from Amarillo to Tucumcari, N. M. This will greatly shorten the distance between New York and San Francisco and between El Paso and Memphis.

Two men were arrested at Sherman on charge of taking stolen horses from Oklahoma to Texas.

Leavenworth, Kan., Oct. 5.—William H. Taft stood for five minutes in a drenching rain Monday morning and spoke to a large crowd, mostly laboring men. Every factory in the city closed down to give employees a chance to hear the candidate.

to hear the candidate. Mr. Taft explained his remarks almost exclusively to explaining his views on the labor question. He said his action in injunction cases needed no defense, as he simply enforced existing laws. He was greeted with a deafening chorus at this declaration. At the close his remarks there was a rush of men in overalls to shake hands with him, some following his train into the yards.

Judge Touches Up Night Riders.

Paris, Tex., Oct. 5.—Judge Denton of Sixth district court gave the jury a special charge regarding night riders who have been terrorizing north Texas recently. He holds that riders come under the "white cap" act, and must be punished accordingly. Farmers and glimmers in this vicinity fear their appearance.

DREW A HUNDRED DOLLAR PRIZE MISSION BOARD IN CONFERENCE.

Mr. F. W. Yeager of This City Gets Into The Money at San Antonio.

A one hundred dollar bill, a lot of good advertising and many compliments on the showing is not such a bad combination to pull down from a list of prizes against competition in which every county of any consequence in southwest Texas was enlisted.

Mr. F. W. Yeager, in charge of the Brazos County Farmers' Union exhibit is to be congratulated for winning the third prize of \$100 awarded by the management of the International Fair at San Antonio. In the matter of competition, Mr. Yeager went up against the real thing in the Alamo City, and the fact that he pulled down the third prize speaks well for the exhibitor and the exhibits.

Next year he may do better. We will try for the first prize, and with the experience gained in the present competition, it would be a safe bet to wager that we would not lose.

BRYAN, TEXAS, OCT. 6, 1908.

The nail factories will have to work overtime if all the campaign lies are elicited.

Roosevelt nad Senator Jeff Davis of Arkansas seem to have joined the Silence club.

Scientists say there are forty-eight kinds of house flies. But, like the trusts, they are all bad.

Bryan has accomplished one thing nobody else ever could do; he has made Roosevelt shut up.

Those fellows up North who have made bets of 3 to 2 on Taft's election will have to eat snowballs next winter.

Have you noticed the expansion in women's hats since that idiot said a woman's hat should correspond with her soul?

Since Roosevelt late antics, the Republican leaders can sympathize with the owner of the china shop after the bull's invasion.

Why keep on building battleships till we find out whether or not two or three men in an airship can blow all of them up in two or three minutes?

Tom Love don't believe that Col. Lyon is sincere in his alleged effort to elect one or more Republican congressmen, because if he succeeded his days as official pie cutter would be numbered.

To offset the Anti-meeting at Houston on October 12, the Pros are planning a rally at Dallas on October 30, which they will endeavor to make the greatest gathering of the kind ever held in the South.

Mrs. Mabel Giffman Corcoran, daughter of Mrs. Nicolas Longworth, the president's daughter, and calls her an untalented daughter, because she has disregarded her father's teachings on the subject of race suicide.

The Republican leaders can sympathize with the inhabitants of Gaudeloupe island when Mt. Pelee was having fits; they never know when Roosevelt will break out again.

The penitentiary commissioners have recommended the building of a cotton factory for the purpose of working the female convicts. Several Texas newspapers, including The Eagle, have been recommending this for a year or more.

When "Sunny Jim" Sherman spoke of Lincoln as "the greatest president the Republican party has given to the nation" he took an unfair advantage of Roosevelt while he is in no position to assert his own claim to that distinction.

Senator Foraker consoles himself with the old proverb, "misery loves company." He says: "Apparently every man who has had any relation to the (Standard Oil) company is to be driven out of public life. If so I shall probably have a great deal of company."

The farmers of Williamson county are complaining of the depredations of rats and corn weevils. If the farmers could all be induced to cooperate in a united effort for the destruction of these and all similar pests their ravages could be stopped or reduced to a minimum.

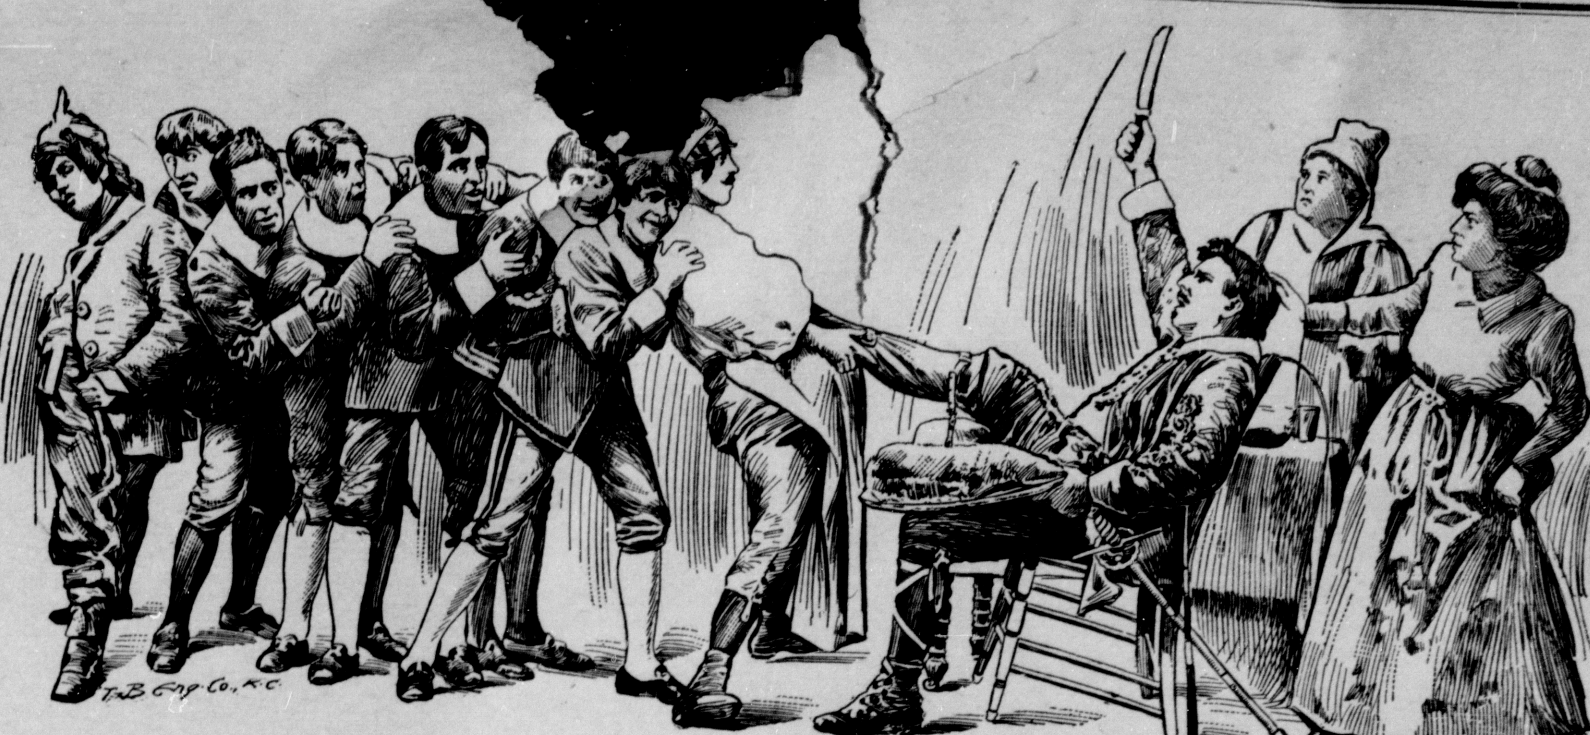

Before the Chicago convention Maj. Mose Harris in his Texas Republic said repeatedly that if Taft were nominated he could not be elected. Now he says "that the election of Taft is as certainly foretold as can be any event yet to come to pass." But Maj. Mose never did care for consistency.

Senator Foraker has asked for a judicial investigation of the charges preferred against him by Hearst and endorsed by Roosevelt and Taft. He seems to have no standard of conduct than the statute law. If this rect, a man is all right as long as he can keep out of the penitentiary.

EXHIBIT FOR TEXAS

Dr. Brumby Secures Great Object Lesson in White Plague War.

Washington, Oct. 5.—New York's exhibit at the tuberculosis congress will be shown in Texas. Dr. Brumby and Dr. Carrick, state health officer and state quarantine officer for Texas, respectively, have been at work for several days with the New York State Charities Association, which controls the exhibit, negotiating to have it sent to the Southwest. Permission to take the exhibit to Texas has been received. It is agreed that the exhibit shall be shown in a number of places in the state when the Dallas fair closes. Dr. Brumby got in touch today with the fair management who agreed that the exhibit should have access to a space of 25x50 feet. Drs. Carrick and Brumby will go to New York Sunday to attend to certain matters connected with the exhibit's shipment. The exhibit is said to be the finest of the kind in the world. It consists of enormous bromide photographs showing the manner in which consumption is communicated, progress of the disease in the system and means of fighting it. It also contains many papier mache manikins illustrating the ravages of the disease and modes of treatment, and numbers of sanitary and unsanitary surroundings. It is constantly surrounded by sightseers while here.

Appreciate Teachers' Work.

One woman says that when her children bring home their school reports at the end of the month she always finds five minutes in which to

write a personal letter to the teacher.

If there is something that the children have learned that surprised her she writes a note of thanks and appreciation, and if the reports are unsatisfactory she writes offering to help the teacher in any way she may suggest. Needless to say, the teachers are appreciative, as anyone will know who has ever taught school.—Exchange.

It would be a great help to the schools if all parents would be as considerate as the "one woman" mentioned above. There are but few teachers who do not do all they can for the education of the children entrusted to their care and if they have the co-operation of the parents are greatly encouraged in the great work in which they are engaged and are stimulated to still greater effort. All people love approbation and none more than the school teacher. Co-operate with the teacher and help your child.—Ft. Worth Star.

SUSPICIOUS OF THE TRUSTS

Prevailing Opinions That the Corporations Are Too Powerful.

Whatever plea in extenuation may be urged for the benefit of Senator Foraker, the fact is not to be concealed that the entire correspondence is calculated to deepen the prevailing public impression that the great corporations of the country have in the past been more powerful than the people in the shaping of legislation. If it be pleaded that Senator Foraker's standard of legislative conduct has been neither better nor worse than that of most of his associates, the conviction will only become the stronger that some way must be found to enforce a higher standard if free government is to continue to exist in our land. The Archbalds and their kind have very clear ideas about what they want, and a characteristically direct way of getting about getting it. A great corporation has, of course, the same justification as any combination of business men would in using interest before a state legislature or the congress of the United States. But when it seeks by retainers of somewhat unusual amount to command at once the legal and the legislative influence of a man who is supposed in the latter capacity to represent solely the interests of a great state, it invites the very kind of legislation which it has drawn so liberally on its treasury to prevent. That is to say, revelations like these make it more difficult for any public man to plead the cause of the Standard Oil Company, even when the cause is a just one, before any assembly of representatives of the people.—New York Journal of Commerce.

Day of Atonement.

New York, Oct. 5.—The celebration of Yom Kippur, the Day of Atonement, by the Hebrew community the world over begins at sunset this evening, and will continue until sunset tomorrow evening. The day is one of the most important in the Jewish calendar and the one most generally observed by the Hebrews. It is the tenth day of the month of Tishri, the first month of the new year, and marks the end of the penitential period which began with the celebration of Rosh Hashanah.

The ceremonies ushering in Yom Kippur are especially solemn and impressive, and the synagogues—both the permanent establishments and those that have been temporarily prepared for the holy day services—are always thronged with devout worshippers. While the reform Jews have to a very great extent expunged the fasting from their observances of the day, yet they unite with their orthodox brethren in the other features of the celebration.

The Woman to Marry.

Is she not the very sparkle and sunshine of life?—a woman who is happy because she can't help it—whose smile even the coldest sprinkle of misfortune cannot dampen. Men make a terrible mistake when they marry for beauty, or talents, or for style. The sweetest wives are those who possess the magic secret of being contented under any circumstances. Rich or poor, high or low, it makes no difference; the bright little fountain of joy bubbles up just as musically in their heart. Do they live in a long cabin? The fire on his humble hearth becomes brighter than the gilded chandelier in an Aladdin palace. Where is the stream of life so dark and unpropitious that the sunshine of a happy face falling on the turbid tide will not awaken an answering gleam?—Ex.

That is prettily said, and while we agree with the author that marrying for beauty or style is a hazardous risk, but at least a fair degree of talent is indispensable in the building of a happy home. Beauty fades—style changes—but talent, or good sense, and the smiling face, goes on forever, making the world better as it goes.—Ft. Worth Star.

Memphis, Tenn., Oct. 5.—A reunion of the famous old Chickasaw Guards, a military organization which twenty years or more ago enjoyed a national reputation as a prizewinner in drill contests, began today with an attendance of many members of the organization, some of whom have come from distant parts of this country and Canada to attend.

Judging the number of movers lay, going for a change in location has seized about half the population in this part of Texas. Where are they going? How much better off will they be when they get there? How long will they remain?—Madisonville Meteor.

DISTRICT COURT

State vs. Ed. Matthews Continued—Bonneville vs. Nall is On.

A continuance until the March 1909 term of court was granted here Monday in the case of the State vs. Ed. Matthews, charged with murder in the first degree. Absence of important state witnesses made the continuance necessary.

At 2 o'clock the case of M. Bonneville, Jr. vs. R. M. Nall was called. This is a damage suit for the sum of \$10,500. Bonneville brings the suit against R. M. Nall, Sheriff of Brazos county, alleging illegal attachment on December 2, 1907. Mr. Bonneville is represented in the matter by Judge S. R. Perdue of Houston and T. R. Batte of this city. Sheriff Nall is represented by Judge A. G. Board of this city, Judge V. B. Hudson of this city and Judge W. H. Hall of Kountz.

In the above suit Mr. Bonneville was awarded a verdict for \$53 and all costs.

Mr. O. Minkert, foreman of the mechanical department of the Bryan Morning Eagle, has a brand new baby girl at his home, which arrived yesterday afternoon. The new arrival makes a pair of queens in the Minkert household.

Almost a Fire

A gasoline stove in the home of Mr. and Mrs. James Bennett came near burning their residence, situated in the eastern part of the city, Sunday morning at about 11 o'clock. Mrs. Bennett had lighted one of the three burners on the contrivance, and left the room for a moment, when gasoline, which dripped from the valve or another burner, overflowed the small receptacle into which it fell, and coming in close touch with the flame, was ignited. There was quite a blaze as a result, and except for the cool head and good judgment of Mrs. Bennett who smothered the fire with her floor rugs, the house would no doubt have been destroyed.

The blaze was discovered by two young ladies, and an alarm of fire turned into the department, which responded promptly, but on arrival found nothing to do as Mrs. Bennett had succeeded in getting control of the situation.

The rugs were destroyed, but except for that, no other damage resulted.

Bryan lodge K. of P. will meet in Castle Hall tonight at 8 o'clock. There will be work in the second rank, and it is desired that all members be present.

Mr. Frederick Warde, who appears at the Grand on Friday night, gives this advice to young orators: "Speak every word clearly and distinctly. Do not use emphasis unless you have something to emphasize. Do not saw the air with your hands. Never make a movement unless you have a reason for it. Speak what you believe and then you will have the consciousness of integrity that will put strength in your appeal. Never lose your temper. Sincerity and absolute belief in what one has to say, is, in Mr. Warde's opinion, the most important requisite for a good speech."

BULGARIA DEFIES PR

By Proclamation Has Declared
Her Independence.

ACTION AT OLD CAPITAL.

At Constantinople Statement Is That
Lack of Unanimity of Powers Causes
Prince Ferdinand and Ministers to
Take This Action.

Sofia, Oct. 5.—The proclamation that Bulgaria is an independent kingdom was formally made at Tirnovo Monday. Prince Ferdinand and ministers at Tirnovo independence proclaimed, having reached there Sunday evening.

A telegram from Constantinople says that Austria, backed by Germany, has encouraged Bulgaria to declare her independence in order to strike a blow at the Kaimil ministry and compromise the new constitution. It is not known what steps Turkey will take, but the impression prevails that a European conference will be held to consider the whole question.

Advices obtained from an authoritative quarter at Sofia are to the effect that only some powers supported the

PRINCE FERDINAND OF BULGARIA.

British proposal for a settlement of the railroad question. This want of unanimity among the powers encourages Bulgaria to persist in her present attitude.

Varna and other Bulgarian towns are placarded with declarations stating that the moment has now arrived to proclaim independence, as otherwise Turkey, on the strength of the treaty of Berlin, will demand restitution of eastern Roumelia.

Bulgaria is a tributary principality under the suzerainty of the sultan of Turkey. Tirnovo is the ancient capital of the kingdom of Bulgaria and it was there in olden days the kings of Bulgaria were crowned.

The proclamation was made at the cathedral at Tirnovo at 11 o'clock boys and young men in the army, and this evidence of its growth and progress.

Monday morning. It was a dramatic scene and accompanied by great enthusiasm. The manifesto of independence was addressed to the nation and subsequently issued by Prince Ferdinand.

Awaits Sultan's Action.

Berlin, Oct. 5.—News was received at the foreign office Sunday night that Turkey was to be informed that Bulgaria had determined to proclaim at Tirnovo her independence Monday. The Associated Press is authorized to state Germany associates herself with the mediatory proposals submitted by Great Britain to the Turkish and Bulgarian governments. It is recognized officially that Bulgarian proclamation gravely complicates the situation, but until the attitude of the sultan is known the German government is unable to foresee its course of action, except that in no event will Germany bring pressure to bear at Constantinople to influence decisions of the porte. Should the Turkish government seek advice of the powers regarding the advisability of asserting supremacy over Bulgaria by military force Germany will not be able to advise the porte to go to war. The Turkish army is not prepared. Bulgaria is ready.

France as Mediator.

Paris, Oct. 5.—France has decided to enact the role of mediator with the object of preventing war between Turkey and Bulgaria. Foreign Minister Pichon has already begun a series of conferences with diplomatic representatives of the powers, with the idea of reaching an understanding, the purpose of which will be the maintenance of peace.

When official news of Prince Ferdinand's proclamation at Tirnovo arrived the foreign minister conferred with M. Iswolsky, Russian minister of foreign affairs, and Naoum Pasha, Turkish ambassador.

Congress of Powers Proposed.

St. Petersburg, Oct. 5.—It is announced with authority that Russia will propose a congress of the powers for a general revision of the Berlin treaty. This is the outcome of the proclamation of Bulgarian independence. Russia has reason to believe the annexation of Bosnia and Herzegovina by Austria-Hungary is imminent.

Moving Toward Frontier.

Paris, Oct. 5.—Le Temps publishes a dispatch from Vienna saying a Bulgarian army is marching toward the frontier and Turks are also moving forward to the frontier. Austria-Hungary is mobilizing two army corps.

Rev. Dr. Mann Chosen Bishop.

Washington, Oct. 5.—Rev. Dr. Alexander Mann of Boston was elected Episcopal bishop of Washington.

Hatfield.

Oct. 5.—Price Bush Perkins, well known in Collin county, who Bill Perkins here, claimed to have been thirteen years ago, came up and went to the jail to look at him. After some little conversation Hatfield called their names and told them that he had worked for them, but none of the gentlemen could place him. Mr. Perkins says he cannot find Hatfield's name on his books, and he has the names of every man who has worked for him since he has been engaged in the farming and nursery business.

Unaware of Its Objects.

Muskogee, Okla., Oct. 5.—Governor Haskell has issued a signed statement here setting forth his connection with the Citizens' alliance. He says he was asked to join an organization to promote harmony in Muskogee during a strike in 1906; that he had never heard of the Citizens' alliance before and that when he found that it barred union labor men and was to fight their interests he at once withdrew from it, and that he had until recently believed the organization was dead.

Started on the Minute.

Dallas, S. D., Oct. 5.—Monday morning the Tripp county land rush started. Judge Willen allowing the notaries to begin writing applications the minute Monday came. Actual registration was started at Gregory and Dallas at 9 o'clock, applications at that hour commencing to drop into the big metal cans at these two points. A light rain freshened up Rosebud Sunday night. People at Gregory and Dallas did not go to bed, fearing to lose half a night's time for starting to New Rosebud lottery.

Sail From Gibraltar.

Gibraltar, Oct. 5.—The United States battleships Maine and Alabama, which arrived here on Sept. 30, sailed for Horta, the capital of the Island of Fayal, Azores.

Big Blaze at Garner.

Weatherford, Tex., Oct. 5.—Nearly all the business section of Garner, located between here and Mineral Wells was destroyed early Monday morning by fire. Loss will reach at least \$30,000. The blaze originated in a drug store.

Her Ears In Danger.

Susie had left her toys about the kitchen. Mother picking them up—Susie, if you leave these things about the kitchen again I'll box your ears and throw them in the ash pit.

Leaves Notice.

I have a first-class tailor who is experienced in altering ladies suits, also cleaning and pressing them, therefore I am now making a specialty of this kind of work. Satisfaction guaranteed and your patronage solicited. UNION TAILOR SHOP, 264 E. L. Beard, Prop.

Congressman Longworth, the president's son-in-law, in a speech at Rock Island declared that Taft ought to be elected for four years and then reelected for another term, after which he would give way to Roosevelt.

Captains Of Industry To Lecture

Chicago, Ill., Oct. 5.—Northwestern University's new school of commerce, which has been established largely through the efforts of the Chicago Association of Commerce, opened for its initial term of instruction today. The school offers courses in merchandising, advertising, insurance, real estate, publishing, transportation and numerous other branches of business. During the term there will be lectures by a number of prominent bankers, railroad officials and other leaders in the industrial life of Chicago.

Ladies don't forget to phone 389 if you want your coat suit altered, cleaned and pressed.

Col. Lyon, Col. Simpson and the other colonels keep on contributing to the funny paragraphs in the newspapers their predictions that the Republicans will get Texas.

Food Rate Case Up.

Atlanta, Ga., Oct. 5.—Many important cases are on the docket for hearing at the term of the United States circuit court of appeals which began today. Probably the most notable of the cases is that involving the fight by the merchants and shippers of Georgia against increased freight rates on food products from the West.

Roosevelt's recent conduct indicates very plainly that flattery has turned his head.
